STAT

MEMORANDUM FOR: [ ] OCI  
Room 5415, CIA Hdqtrs Bldg

SUBJECT : CASCON System, Professor Lincoln Bloomfield, MIT

STAT

1. Attached for your information is a note from Professor Bloomfield to [ ] IC Staff. Attached also is a description of CASCON, as well as my intra-IC staff memo indicating we have some very preliminary interest in this system. Our interest may be only intellectual, but I don't know.

2. Please phone me and let me know whether OCI, or any other intelligence component you know of inside or outside CIA, is or has made use of this mechanism.

3. If the materials attached are of use for your OCI Notes on Methodology, I see no reason for not using this descriptive material as you wish.

4. I think the Notes are well written and I look forward to receiving each edition. I believe this is a useful service, and I hope that through the USIB Intelligence Information Handling Committee (IHC) we may be able to further stimulate this sort of effort. Please keep in touch.
